Western Canada College

FOUNDED 22 YEARS

VISITOR

HIS HONOUR LIEUTENANT-GOVERNOR BRETT

GOVERNING BODY OF THE COLLEGE

The government and control of the College is vested in a Board of Trustees, elected according to the provisions of the incorporating Statute as revised in 1920 by the Legislature of the Province of Alberta. By this statute the College was made an educational trust administered by a Board of Trustees. This board consists of eight members and is elected annually—half being elected by the outgoing board, and half by the Old Boys' Association at their annual meeting.

THE SCHOOL GYMNASTIC TEAM

Western Canada College

GENERAL INFORMATION

History

Western Canada College was founded and incorporated in the spring of the year 1903, in response to the demand for such an institution in the Far West.

The Hon. F. W. G. Haultain, Premier and Minister of Education, in the Northwest Territories, opened the College on Thursday, the 24th of September, 1903.

The College and the Churches

Western Canada College is wholly undenominational. It has no connection, direct or indirect, with any religious sect.

According to its revised constitution, "The College shall be distinctly Christian, but no religious test or qualification, save the profession of Christianity, shall be required of any Trustee, Teacher or other official of the said College."

The aim of the Corporation is to make the institution like unto itself, viz., undenominational. With this object in view, the high councils of the various religious denominations were requested to pass upon it.

Subject to minor changes in the Ordinance of Incorporation, "The Anglican Diocese of Calgary is prepared to recommend, that the hearty support of the Church of England in this Diocese be accorded and given to Western Canada College, so far as the general idea is concerned."

The Baptist Convention of Manitoba and the Northwest Territories heard "with pleasure of the founding of Western Canada College."

The Methodist Conference of Manitoba and the Northwest Territories, "heartily endorses the scheme to establish an undenominational College in Calgary."

The Presbyterian Synod of British Columbia (this included Alberta), and the General Assembly of the Presbyterian Church in Canada, "cordially commend the proposal to found an undenominational educational institution in the City of Calgary."

Grounds—The grounds, eleven acres in extent, in the west end of the city, are high and beautifully situated.

Buildings—In the year 1904 the first College building was erected. This building is four stories in height and is now used exclusively as a College residence for masters and pupils. A second building was added in 1906. This brick structure is used for academic purposes. It has well ventilated class rooms. The College is heated throughout with steam, lighted with electricity, and has modern conveniences. In 1907 a new and separate building was erected to serve all the purposes of a first-class gymnasium. Its dimensions are sixty feet long and thirty feet in width. This is fully equipped for gymnastics, and the exercises of the boys are supervised by a competent instructor. In 1908 it was found necessary to enlarge the Residence building. A three-storey building,

THE READING ROOM

26x34 feet, was constructed. It is lighted with electricity and heated by the hot water system. There are plenty of bathrooms and lavatories on each flat. The College has accommodation for sixty-five boarders.

In 1919, a Chemical and Physical Laboratory was erected to the south-east of the main building.

THE RELATION OF THE OLD BOYS' ASSOCIATION TO THE COLLEGE

In 1920, following the Great War, the Act of Incorporation was revised. As a memorial to the Old Boys who had served King and Empire in the Great War, and to commemorate those who had made the supreme sacrifice in this war, the Old Boys' Association was given the right to elect four trustees each year.

LIBRARY

The College has a library of 1,000 volumes, including such standard works as Scott's, Jules Verne, Children's Encyclopaedia, Dickens', "Americana," "Makers of Canada," "Encyclopaedia Britannica," "The Historian's History of the World," "Nature's Library," etc.

CURRICULUM

Western Canada College is a Residential and Day School for the education of boys.

The chief aim of the College Corporation is to prepare the youth of this land for useful and honourable lives. To this end, particular attention will be given to the harmonious development—moral, mental and physical—of those committed to their care. The corporation will spare no efforts to maintain a high standard of efficiency in all departments of the College.

In like manner, there will be no neglect of physical culture. True character is impossible without wholesome human employment, bodily as well as mental; and as a boy has not only a mind and a body, but also a moral nature—a soul and a spirit—this, most of all, will receive care and attention. The manliness of Christianity, its study and practical nature, will be steadily inculcated.

Such an institution offers special advantages to parents for their children. Boys will receive careful and constant attention. They are kept in good surroundings. If backward they will be specially instructed.

The boys in residence enjoy the advantages of regular study and preparation under the supervision of the instructors.

Every attention is given that boys, in the first instance, lay a sure foundation—that, e.g., they may acquire ease in writing, spelling, composition, reading, arithmetic, and the proper use of the mother tongue. "Many things may wait while a boy learns to write and speak good English."

Under these conditions, too, boys are taught good, and regular, habits. They have their prescribed hours for rising and retiring, for study and recreation.

A GYMNASTIC MOVING TABLEAU

COURSES OF STUDY

I. **Matriculation Course** for entrance into Arts, Law, Medicine, Science, Engineering, Dentistry, Pharmacy, Architecture and Surveying and Agriculture at any University. Special attention is given to boys desirous of entering the Royal Military College at Kingston.

These Matriculation Courses form an excellent basis of general education, and develop in faithful students those great advantages for later life of quick observation and rapid accurate thinking.

II. **Preparation for Business Life**—A General Course in English, Mathematics and Science. Arrangements for Bookkeeping, Shorthand, etc., are made when desired.

III. **Music and Art**—The study of the Fine Arts has for long been considered an indispensable part of a thorough education. The syllabus arranged is that of the Junior, Intermediate and Senior Examinations or, if so desired, the course adopted by the Associated Board of the Royal Academy and Royal College of Music, England.

IV. **A General Course** which is so arranged that a student passes by easy stages from the lowest form to the highest in the school, the work of each stage being done so thoroughly that there is no check in a boy's career.

Lower School—Forms I., II., and III., Boys 6-10 years. In these forms, careful tuition is given in the three R's. When a boy is able to read intelligently, to figure accurately and write legibly, the true foundation of an efficient and increasing education has been laid, and study, instead of being a drudgery, becomes a source of pleasure and profit.

In addition to these subjects, an elementary knowledge of Canadian History, Geography, Drawing and Music is imparted.

Middle School—Forms Lower IV., Upper IV., Lower V., Upper V., Boys 11 to 15. In this school a boy is taught to express himself readily and in a pleasing manner. This is done, not only by a thorough study of the English Language, but also by gaining an acquaintance with the classical and modern languages. His outlook is widened by a study of British and Continental History. Here also a beginning is made of the serious study of mathematics, algebra, geometry, mensuration and trigonometry, these being part of the curriculum. A useful and interesting class in the school is that in General Knowledge, taken by the Headmaster. By this means the student is kept abreast of modern thought and invention.

Upper School—Forms Upper and Lower VI, and Matriculation. In these forms, the syllabus is arranged in accordance with the calendars of the Universities. The student now begins on the specialized work for his life career, and great care is taken to inculcate and develop the powers of thought, conception and intensive study. Whatever profession or career be chosen, these are two great assets leading to success.

Religious Instruction—Reference has been made to the College and the Churches. As the school is distinctly Christian, every effort will be put forth to promote the spirit of Christianity as the true basis of life and character. The wishes of parents, expressed in writing with regard to religious instruction will be strictly respected.

SNAPS TAKEN ON FIELD DAY

Physical Culture—There is no better equipped Gymnasium of its size in the Dominion of Canada. The effect upon the boys of regular Swedish Drill and Gymnastic Exercises at the hands of an experienced teacher is truly marvellous.

This exercise is given daily and is as real a part of the Curriculum as Mathematics or English.

Recreation and Athletics—Every attention will be paid to health and development of physique. The grounds are admirably situated for athletics. Every boy is expected to take part in all the school games (cricket, hockey, football, lacrosse, tennis, etc.) unless prevented by ill-health. In winter, there is a splendid skating rink on the school grounds. Swimming Classes are held on Saturday mornings. A nominal charge is made for this instruction.

In addition to the Gymnasium, there are excellent tennis courts, a rifle gallery under special direction, and a Manual Training Department outfitted under the personal direction of Mr. T. B. Kidner, Director of Vocational Education for the Dominion Hospitals Commission, Ottawa.

Home Reports—Reports on the progress and conduct of pupils are sent to parents and guardians monthly. In addition there will be an examination report showing class standing and marks at Christmas, Easter and Midsummer.

RESIDENCE

The Masters live in residence with the boys. The boys are under the immediate care and supervision of the Headmaster and Masters. Parents who have not the opportunity to train boys as they would wish, will find, in Western Canada College, a place where their boys will be trained in gentlemanly conduct and correct speech on all occasions, whether in the classroom or on the playground, in the study, or at the dining table.

From time to time, during the college year, addresses will be given to the boys by representative speakers.

CORRESPONDENCE

One evening in each week will be spent in letter-writing under careful oversight. No single accomplishment is of more generous value and practical importance than the art of correspondence.

CALENDAR

The School Year consists of four terms, known as the Autumn Term, Winter Term, Spring Term and Summer Term; the year being approximately forty weeks in length.

FEES, ETC.

Matriculation Class, Boarders.....	\$140.00—Day Boys	\$42.00	per term
Sixth Form, Boarders.....	136.00—Day Boys	38.00	“ “
Fifth Form, Boarders.....	130.00—Day Boys	33.00	“ “
Fourth Form, Boarders.....	130.00—Day Boys	33.00	“ “
Lower School, Boarders.....	130.00—Day Boys	33.00	“ “

The above fees include Athletics, College Reviews, College Caps, Laundry, Hair Cutting (for Boarders), and all school books and school supplies.

TABLEAU BY GYMNASTIC TEAM

Extra charge will be made for special tuition, such as Music, etc., pocket money and clothing, etc., supplied through the Matron.

Pupils will be furnished with necessary school books and school supplies each Term.

Boarders' Entrance Deposit of Twenty-five Dollars for contingent expenses—*payable on entrance, in advance*—is charged, but same will be refunded when a student leaves the College, provided his account has been paid in full.

The Medical Officer of the College will be responsible for the free treatment of minor ailments only.

Special consideration will be given in the matter of fees to sons of men who have been killed at the front.

The following rule respecting the payment of fees has been adopted by the Governing Body of the School:

Fees for Board and Tuition in each term must be paid in advance. Boys will not be allowed to remain at school should fees be not paid promptly at the beginning of each term.

Should it be necessary to remove a pupil before the close of the school year, a term's notice is required; *otherwise the fee for that period must be paid.*

If possible, pupils should enter at the beginning of a term. They may, however, enter at other times, fees being payable for the unexpired portion of the term.

N.B.—An account will be rendered each Term for Tuition, Board and Supplies.

REQUISITES FOR RESIDENTIAL BOYS

The following list of clothing is supplied *only as a guide* to parents selecting an outfit for their sons:

One Pair Football Boots.	Six White Soft Collars.
One Pair White Flannel or Duck Trousers.	One Pair Heavy Gloves or Mittens.
Two White Sports Shirts.	Clothes Brush.
One Dark Suit for Sunday wear.	Shoe Brush.
Two School Suits.	Three Pairs Pyjamas.
One Overcoat.	Napkin Ring.
Four Towels.	Four Table Napkins.
Two Bath Towels.	Bath Robe or Dressing Gown.
Pair of Slippers.	Two Laundry Bags.
Pair of Rubbers or Overshoes.	Six Negligee Shirts.
Tooth Brush.	Two Suits Winter Underwear.
Hair Brush and Comb.	A Bed Comforter.
Three Suits Summer Underwear.	One Pair Boots for Sunday wear.
Six Pairs Socks or Stockings.	Three White Stiff Collars.
Two Pairs School Boots.	Three Ties.

Headgear at the school must be of a uniform character, and should be purchased under the supervision of the Housemaster.

A soft felt hat must be worn by boys over sixteen years of age. The following are also necessary but can be obtained at the College:

C One Pair Gymnasium Pants.	One Gymnasium Jersey.
One Pair Gym. Shoes.	One College Sweater.

N.B.—No sweaters but College Sweaters may be worn by boys. Football Jerseys, College Caps and College Toques can be obtained at the College.

Every boy should bring with him two lists, one of which he must hand on arrival to the House Master or the Matron. Boys must have their clothing, linen and other requisites **Clearly marked, with the Name in full.**

If not done before the boy enters College, an extra charge will be made for the marking.

While everything possible will be done by those in charge to see that every boy retains and respects his clothes, yet the College **can in no way assume the responsibility for articles lost or destroyed.** There is fire insurance on all boys' clothing and personal effects.

The clothing of the younger boys is inspected and checked from time to time.

Except in cases of absolute necessity, the Headmaster will not give orders to the local tradesmen without written authority from the parents or guardians of the boys. No order will be given when the amount of the entrance deposit has been exceeded, unless a further deposit to cover the cost is made. Parents will be notified when this is the case.

DISCIPLINE

As an aid to discipline and esprit, a certain number of the senior boys are appointed by the staff to act as prefects. In the exercise of their duties and responsibilities in class-room and on the playgrounds, they are expected to uphold the best traditions of the College-school by their conduct and example.

All pupils attending courses of instruction in Western Canada College are responsible to the College Authorities for proper and orderly conduct at all times. The authorities have power to impose fines and to use all other appropriate means of discipline.

GENERAL REGULATIONS FOR BOARDERS

Boarders are received into the College building under the personal supervision of the Headmaster. All boys must report to the Headmaster as soon as possible after arrival at the College.

All meals are taken in common. The boys are assigned to different tables, over each of which a master presides. The food is excellent in quality and unstinted in quantity. It is desired that no eatables, with the exception of fruit, should be sent to the boys during Term.

The household arrangements are under the control of an experienced Lady Matron.

Pupils from a distance are allowed, upon application, to remain in residence during the Christmas and Easter vacations, at a charge of ten dollars per week for board. No pupils are permitted to remain during the summer holidays.

No boy will be allowed to accept any invitation, or receive any telephone message, unless the consent of the Headmaster has been obtained.

Each junior boy is supplied with twenty-five cents per week pocket money. Senior boys are allowed fifty cents per week. This sum is charged to boys' accounts, and from it will be deducted the cost of all unreported breakages, damages to furniture, etc. The sum is considered

quite sufficient for the personal expenditure of the boys. Prefects are allowed seventy-five cents per week.

Boys returning late are liable to have all privileges curtailed for a term.

It is desired that the parents of the Day Boys should not allow their boys much money in or about the School, as this, too, has a bad influence in various ways.

The Headmaster particularly requests that no money should be sent to boys themselves, as it very much interferes with proper discipline, and makes invidious distinctions. By adopting this method of procedure, many extravagances and losses may be prevented.

During boyhood is the time when a boy should be helped to form good regular habits. Promptness and punctuality are bases of character, the first and most necessary conditions of success. Parents are earnestly requested to co-operate with the Masters in their efforts to make this a fixed habit in the daily life of their boys. To this end parents should sternly refuse to prolong the time set for vacation. Let them as a duty and a kindness to their boy, see to it that he is back in College on the appointed day, promptly on time. No boy is allowed to receive parcels of food for private use. Should such be sent, the food will be placed on the table and shared with the other boys seated at that table.

SHOWER BATHS

In the spring of 1920 a large changing room and shower baths were built. This enables all boys to have a hot or cold shower bath immediately after games.

RIFLE SHOOTING

Besides the Gymnasium a Shooting Gallery has been erected. This enables boys to practise rifle shooting under proper supervision. Prizes are given by the military authorities at different times throughout the year. Boys can also qualify as first, second or third class marksmen in the Dominion Marksmen's Association. Certificates and badges are given to show the standard reached.

The 91st Battery Canadian Field Artillery has been allotted to Western Canada College as a school unit. Boys sixteen years of age and over are eligible to join if they wish. The military authorities will hold examinations when necessary and boys can thus qualify for commissions in the Militia. This entails no obligation on the part of parents or boys in the event of war, but the training is an excellent one in any case.

LEAVE

Boys are given leave on Tuesday afternoon from 3:45 until 5 or 5:30, when the weather is too stormy to play games, on Saturday, from 2:15 until 5:30.

ADMISSION OF BOYS

A certificate of character and conduct from a clergyman, or from Principal of the boy's last school, must accompany the application of each boy.

The health form that is sent with the certificate must be filled in by a duly qualified physician.

DAILY ROUTINE**WEEK DAYS**

Rising Bell, 7.15 a.m.
 Breakfast, 8 a.m.
 Prayers, 9 a.m.
 School 9.15—12 a.m.
 Luncheon, 12.10 p.m.
 School, 1.30—3.30 p.m.
 Games, 3.30—6 p.m.

 Evening Service, 7.10 p.m.
 Lights Out, 9.45 p.m.

EXAMINATIONS AND PRIZES

Examinations are held at the end of the Winter, Easter and Summer Terms; from these, the monthly marks and Masters' Reports, the boys' status is determined.

The Governing Body of Trustees annually presents one Gold and one Silver Medal. The Gold Medal is presented to the boy who has shown the greatest proficiency in his studies and examinations during the year in the Matriculation Form, if of sufficiently high standard. The Silver Medal is awarded by vote of the Masters to the boy who has chiefly distinguished himself by "Steady Perseverance in Industry, Courtesy and Integrity."

Prizes are also presented in the various Forms for Highest Proficiency in Scripture, History, English, Science, Mathematics, Latin, Moderns and Writing.

The following Medals are also offered for competition:

A Gold Medal for Ability and Influence in School and on Campus, presented by His Honour the Lieut.-Gov. Dr. R. G. Brett.

A Silver Medal presented annually for the boy most proficient in Science.

A Silver Medal for the highest proficiency in the Sixth Form.

A Silver Medal for the highest proficiency in the Fifth Form, presented by G. L. Peet, Esq.

A Silver Medal for the highest proficiency in the Upper Fourth Form.

A Silver Medal for the highest proficiency in Mathematics. This competition to be open to the Fifth, Upper Fourth, Lower Fourth and Third Forms.

A Bronze Medal for the highest proficiency in the Lower Fourth Form.

For the encouragement of Gymnastics and Athletics, the following Medals are offered:

A Gold Medal for the all-round championship in Annual Field Day Sports, presented by the Old Boys' Association.

A Silver Medal for the Junior all-round championship in Athletics, presented by the Old Boys' Association.

One Gold Medal for Senior Gymnastic Competition, presented by H. R. Chauncey, Esq.

Two Medals for Intermediate and Junior Gymnastic Competitions, presented by James Muir, Esq.

The Graham Adam Memorial Medal for Essay on some current event, presented by J. G. Adam, Esq.

Medals are awarded annually in each class in Boxing and Field Sports.

THE UNIVERSITIES

Examinations of the following Universities are held annually at the College:

The McGill Matriculation (Junior and Senior) held in June.

Toronto University Matriculation (Junior and Senior) held in June.

Alberta University Matriculation (Junior and Senior) held in June

Manitoba University Examinations.

HONORS GAINED
